

Dear Parents/Guardians:

The OACSD has partnered with MHR Technologies to launch SchoolPass software for our District Daily Wellness Checks for students, staff and the occasional visitors who may enter any of our school buildings.

At some point tomorrow (Wednesday, 9/9) the first Guardian listed in eSchoolPLUS for each student in the district will receive an email with username and password for the SchoolPass system. If the first guardian does not have a valid email address listed in our system, please [indicate that on this form and submit](#). We will add an email address for you and resend the Login Information. Once the first guardian has established an account, they will have the ability to add additional parents to their account.

If parents of a student live in separate households and would like to create a separate account for their student(s), please [indicate that on this form and submit](#). An account will be manually created for you and the Welcome email will be generated and sent. You can expect to receive your Welcome Email within 24-48 hours after submitting this form.

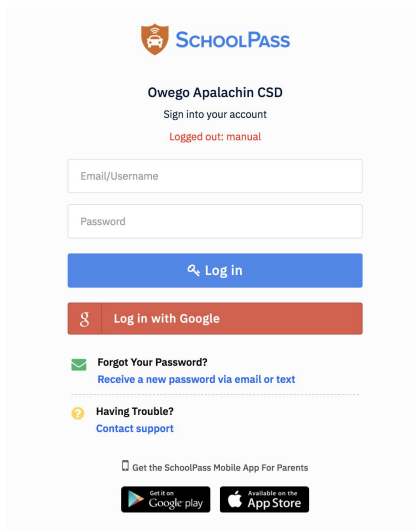

In the email you receive, you will be provided with a temporary password and you will be asked to change your password upon your first successful log in.

There are two ways in which parents can access the Wellness Update and submit for their student(s):

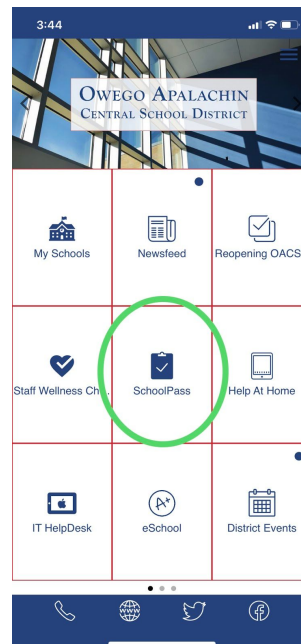

- Via the SchoolPass PSA App which can be downloaded onto your mobile device via Google Play Store or the Apple App Store (and will also be available on all student iPads)
- Via any web browser by visiting <https://oacsd.school-pass.net/> - this link is also available from the OA App

Web:

OA App:

For instructions on how to use the app once logged in, please refer to this document:

<https://www.oacsd.org/Downloads/SchoolPass-Wellness.pdf>

The Wellness Check must be completed for all students prior to arriving on campus each school day.

Down the road, we will begin to implement additional features that SchoolPass has to offer including an easy and secure way to communicate your child's arrival and dismissal changes to the school. You will have access to the website or the smartphone app to make changes (for example: to report an absence, late arrival or early pickup, or to allow another family to pick your child up). This system will automatically notify the school office, the homeroom teacher(s), and any other parents in your carpool (if applicable). We will send out more notifications once we are prepared to roll out any new features.
